

In maths we will focus on...

Multiplication and division. We will investigate commutativity with numbers as well as different ways to represent multiplication number sentences.

We will also move on to geometry, describing 2D and 3D shapes.

Problem solving and reasoning skills will also be developed.

In science we will be learning about...

The use of everyday materials, how materials are made and the pioneering work of Charles Macintosh.

In the second half of spring term we will be learning about plants and growth.

Scientific investigations will continue within lessons and understanding how to test predictions.

In Art we will be learning about... Andy Warhol through his works of pop art. We will learn how to draw self portraits and present them in the style of Andy Warhol.

Year 2 Hazel and Willow

This term our topic is

Magical mapping

We will be learning about...

In **RE** we will be learning about important stories within religions.

In PE we will be learning...

To use our bodies to enhance flexibility, balance and co-ordination through dance. We will also be concentration on working in groups and building relationships through physical education.

In English our focus will be...

How to write and identify the text features of poetry, fiction and non fiction texts, such as recounts. We will be developing our use of vocabulary, adjectives, adverbs as well as how to use a range of punctuation and grammar skills correctly.

In Geography we will be focusing on...

The continents and oceans of the world and understand how to read and create maps as well as using atlases and globes.

After half term we will be learning about the united kingdom, looking at physical features of areas within the UK.
