

Message from Mr. Martinson

Welcome back!

It really has been marvelous to see all the children and to have a whole school assembly in the hall was a real treat. It made me realise just how long this has been going on for when some staff asked where to stand and where to put their class. These were staff who we employed after the first lockdown and who I wouldn't consider to be new.

It was also wonderful to see different age groups share the playground and dining hall. Long may this continue!

The new rules for COVID are that:

Bubbles and staggered starts are no longer advised,

Children can have break and lunch times together,

If your child is identified as a close contact, they do not need to isolate,

Face coverings are no longer required,

Classrooms are to be kept well ventilated,

Enhanced cleaning is to continue.

We will let you know if anything changes, please keep us informed of any positive cases. If your child develops any symptoms of COVID19 you must keep them off and arrange for a PCR test. You can only send them back in if that test is negative.

Details can be found here:

Extended time for Breakfast Club

As parents are going back to work and in some cases back to offices, your journeys are returning to normal too. I am considering changing the start time of our Breakfast Club to 7:30am. The cost would remain the same, as I'm hoping that it will increase the numbers and this would help to make it more financially viable. If you would be interested in your child starting from 7:30am, could you please let the office know? We will staff it according to need at first but hope to make it permanent.

Reception 2021

We are looking forward to meeting our Reception parents and new pupils. Appointments are being arranged for you to come in and meet the teachers. If you haven't heard, then please contact the office to make sure that you have an appointment.
